PAR COLLEGE ACADEMY

IN ASSOCIATION WITH EASTON COLLEGE

PAR GOLF ACADEMY

ACHIEVE YOUR POTENTIAL

The PAR Golf Academy is aimed at talented and enthusiastic young golfers who want to achieve their golf and educational potential.

How do we achieve this?

A dedicated golf training program with over 250 hours' worth of direct contact time with an expert team of coaches, specialising in a variety of golf areas. Our team is based at the Norwich Family Golf Centre and is where the majority of training will take place.

Alongside golf training, participants will study with our academic partners, Easton and Otley College which is situated next to our training facility. The Level 3 Extended Diploma in Sport is a two-year course and is equivalent to 3 A Levels, giving students the necessary knowledge to pursue a variety of career options.

COURSE DIRECTOR

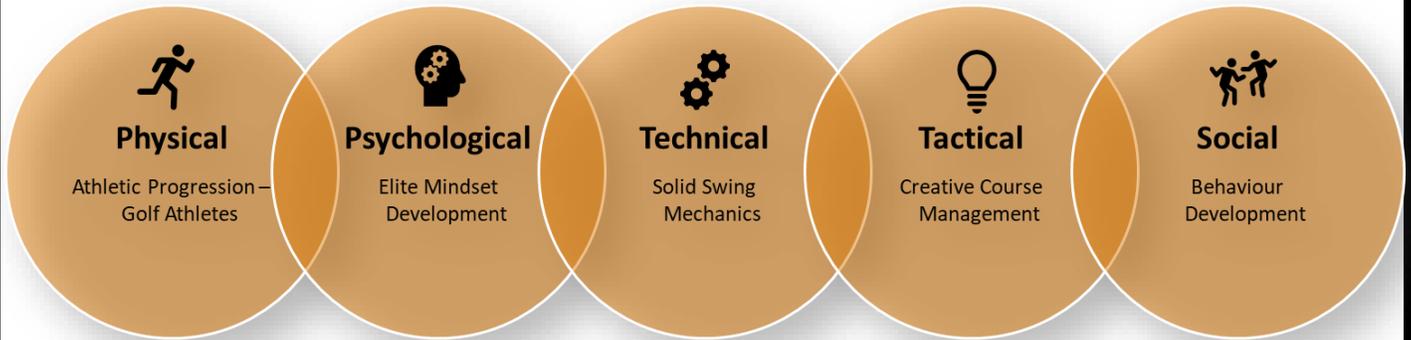

Lewis Clarke - Performance Coach

- MSc Sports Performance
- Golf Lab Engineer and Performance Fitter
 - WedgeMatrix Instructor
- Level 2 Trackman University Certified
- Academy Squad Coaching Experience

OUR VISION

- Through Performance and Research, become one of the leading coaching facilities in the UK.
- To inspire current and next generation of golfers to love the game.
- To develop golf athletes

SPECIALIST COACHING

Here at PAR Academy, every session delivered has a focus on the key attributes that make for a successful golfer: Physical, Psychological, Technical, Tactical and Social. Over the course of our programme, students will develop over every one of these key areas to give them the best possible chance of success in Golf. A big emphasis is also on these skills being transferred into everyday life.

“As coaches, we have the opportunity to have a significant impact on not just the students golf, but how they become successful adults... our focus on every aspect of golf performance reinforces important life skills” - Lewis Clarke, Course Director

OUR TRAINING FACILITY

The Norwich Family Golf Centre is our training base for PAR Academy Students. A centre of excellence for golfers in the region, hosts an impressive 28 covered range bays, outdoor grass bays and 2 short game areas. The floodlit range is the largest in the Norfolk.

PAR Coaching Suite

Adding to our Mizuno Performance Suite and Trackman Fitting Suite, comes our PAR Teaching Suite. Fitted with the latest golf coaching technology, offering the most premium coaching services in the region.

COACHING TECHNOLOGY

Why guess what you can measure?

Our coaching technology allows us to dive into the golfer's swing and movements. This helps the PAR Coaching Team accurately and objectively understand what and why is causing certain patterns.

Swing Catalyst Balance Plate provides detailed foot pressure data, accurate pressure distribution, real time center of pressure (CoP) and CoP patterns. These detailed parameters are impossible to see without the use of such equipment.

KMotion is a 3D Motion vest, which evaluates the biomechanic movement of the golf swing. This technology allows us to understand how important body segments are moving during the golf swing. Biofeedback is one of the most successful ways of learning.

Trackman 4 is used by 82 of the top 100 golfers in the world. It utilizes a dual radar system, which tracks the clubhead through the impact phase as well as the ball... all the way until it stops rolling. The ability to track the ball accurately than any other system is why we use it mainly for Club Fitting and Yardage Analysis.

GCQuad is the world's first quadrascopic launch monitor. Four high speed, high resolution cameras deliver unprecedented image clarity throughout impact. The ability to track the clubhead accurately than other systems is why we use GCQuad mainly for Club Data.

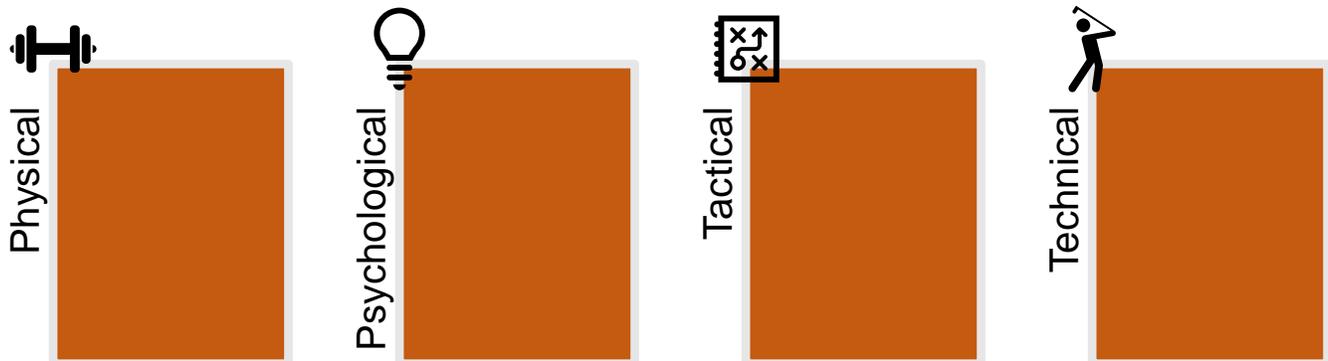

TRAINING PROGRAMME

Age and ability tailored group programme, focusing on all aspects of successful performance.

PERFORMANCE PLAN

From the Performance Profile, a Performance Plan is created. This will give students and coaches specified areas of improvements to achieve over each term.

EDUCATION

Powering your education through sport

Level 3 Extended Diploma in Sport Academies is an athlete development pathway for those students who demonstrate a positive attitude to physical fitness, a healthy lifestyle, the motivation to succeed at their sport, and a commitment to personal progression as performers. The sports academy pathway allows students to combine study for an academic qualification alongside their personal development as sports performers.

THE COLLEGE

The College is split across two sites, Otley Campus and Easton Campus. Easton Campus is set across 245 hectares of land, with a variety of vocational courses offered. The sports facilities rival some of the best in the region, including a state of the art Tennis Centre (Indoor and Outdoor Clay), 3G Pitch, Performance Coaching Area and a Fitness Suite.

SPORT ACADEMIES

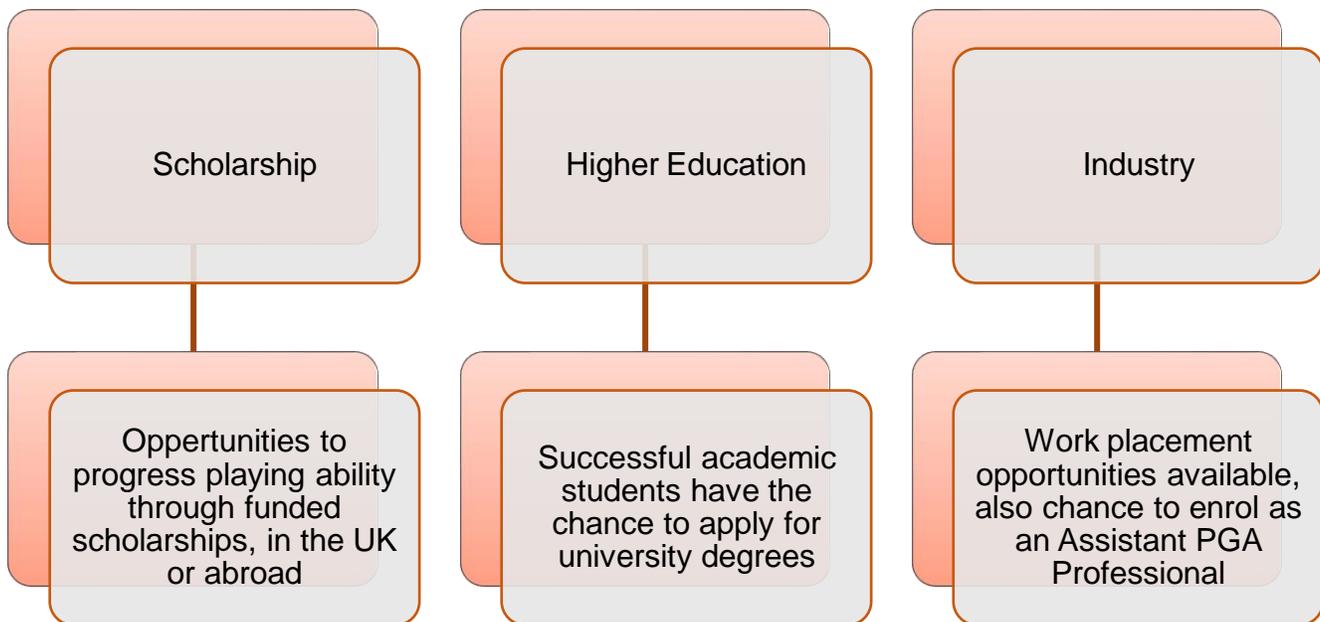

Alongside the PAR Golf Academy, Easton and Otley College already run a series of successful sport academies in Football, Rugby and Tennis. Teaching groups are allocated with sport academy students only, allowing students to engage with like-minded athletes across various sports.

Give aspiring young golfers the chance to fulfill their maximum golfing and educational potential, through a professional academy

PROGRESSION ROUTES

So, what can I do once I have completed?

After completion of the two-year course, students have many options and pathways to further their golf, or academia.

ADDED BENEFITS
